Experiences

Internship in Full-Stack Web Development

Aftercode Nabeul

June 2021 - September 2021

During my internship at Aftercode, I developed a school management system using Spring Boot and Vue JS, implementing features such as student management and scheduling. This experience enhanced my skills in full-stack development, RESTful APIs, and designing responsive user interfaces.

Java/Angular full-stack developer

Freelance

Juin 2021 - Juin 2022

As a freelance instructor, I mentored students on Java and Vue JS, guiding them through end-of-study projects and helping them master full-stack development. With over 25 projects, I enhanced both my students' skills and my own expertise in web development and instruction.

End-of-Study Project Internship

Cypros Ben Arous

February 2022 - June 2022

During my internship, I developed a price comparison application using Java, Spring Boot, Vue JS, Flutter, Django, AI, and Docker. I created a scalable backend, a web interface, and a mobile app while integrating AI and optimizing deployment with Docker.

Full-Stack Java and Angular Developer

Sopra hr SOFTWARE Iac 2

2022 - Present

At Sopra HR Software, I developed HR solutions using Java for the backend and Vue JS for the frontend, working on features like employee management and payroll. I gained experience in full-stack development, client-server communication, and collaborated with international clients to deliver tailored solutions. I contributed to testing and worked in an Agile environment for quality delivery.

Technical Skills

- Programming Languages: Java, JavaScript, TypeScript, Python
- Frameworks & Libraries: Spring (Spring Boot), JEE, Angular.
- Web Services: RESTful APIs
- Databases & Cloud: SQL, Cassandra, MongoDB, AWS.
- Tools & DevOps: Git, GitHub, GitLab, Kubernetes, Docker
- Agile Methodology & Scrum
